Ingredient Profile CHAMOMILE

The white, daisy-like flowers of **Roman Chamomile** (*Anthemis Nobilis* – Certified Organic) are steam-distilled to create an essential oil with a soothing, calming, and relaxing aroma. The English word Chamomile comes from the Greek words *kamai* and *melon*, meaning "ground apple" – named so for its apple-like flavor. In addition to being used for nervous afflictions of all types, Chamomile makes raw, chapped skin smooth and supple with a serenely healing effect. The sweet, dry, and somewhat fruity scent is known to be calming, particularly to children. Badger uses Chamomile in all of our Baby and Kid Care products.

Trust the real stuff

Made with Organic Extra Virgin Olive Oil

In the olive growing countries, it is a ritual to anoint, massage and soothe newborn babies with precious olive oil. In addition to the Organic Extra Virgin Olive Oil base in all of our baby products, we include Organic Calendula and Organic Chamomile – traditional calming and healing herbs for babies. These blends are exceedingly natural, and close to the source. We wouldn't even think of using chemicals or synthetics in a product like this (or in any of our products, for that matter!).
