The Experts in Green Nutrition

# THE RICHEST WHOLE FOOD SOURCE OF CHLOROPHYLL

## CHLORELLA

BROKEN CELL WALL FOR ENHANCED ABSORPTION

# CHLORELLA

Chlorella, one of the oldest “whole food” supplements, is treasured throughout Asia for its nutritive and restorative properties. It is a nutritious source of protein, vitamin A (as beta carotene), vitamin C, iron, chlorophyll, and Chlorella Growth Factor.

## HEALTH BENEFITS

### Gentle Detoxification

**Highest concentration of chlorophyll:** Among all the plant species, chlorella has the highest concentration of chlorophyll. Chlorophyll helps to cleanse the body of unwanted heavy metals which our bodies are exposed to on a daily basis.\*

**Active digestive enzymes:** Due to the low temperature method of breaking the cell wall, the enzymes in the Organic Chlorella remain intact and active. These active enzymes may assist in the digestive process.\* As we age, our ability to manufacture our own enzymes decreases significantly.

### Nutrient Dense

**No binders or fillers:** Organic Chlorella contains no binders, additives, or fillers, just 100% organic chlorella.

**Protein dense:** Approximately 60% of the weight of chlorella is protein. Organic Chlorella contains 16 amino acids, 6 of which are considered essential amino acids. The protein in chlorella is at a higher concentration and more easily digested than animal derived proteins, without the worry of saturated fat.\*

**Powerful immunity boosting antioxidants:** One serving is equal to 62% of your daily requirement of vitamin A (as beta carotene) and 130% of Vitamin C.

**Vitamins:** In addition to its high concentration of protein, chlorophyll, and antioxidants, Organic Chlorella also contains an array of B vitamins: B1 (Thiamin), B2 (Riboflavin), B3 (niacin), B6, and B12.

### Certified Organic

Much of the chlorella on the market is not certified organic. Organic Chlorella is USDA organic certified by a third party and is grown in a state of the art facility supplied by natural spring water. Water purity is tested regularly, no synthetic solvents or pesticides are applied, and no ionizing radiation treatment is used.

### Energy Enhancing

Unlike caffeine, sugar, and artificial stimulants, Organic Chlorella is a natural energy booster without the crash. The chlorophyll, the active enzymes, and the immunity boosting antioxidants assist the body in functioning more efficiently.\*

### Bioavailable

Our special method of breaking the cell wall at low temperature, under low lighting, allows the nutrients to remain intact and available for absorption. If the cell wall is not broken, the nutrients inside the tough, fibrous shell are not accessible by the body. No harsh chemicals, high temperature, or extreme light is used in order to protect the nutrients.

## INGREDIENTS

100% Organic Chlorella (Chlorella vulgaris)

Contains no added sugar, salt, colorings, or fillers. Free of animal products, gluten, soy, wheat, and yeast.

## Supplement Facts

Serving Size: 1 teaspoon (3g)

	Amount per serving	%DV*
Total Calories	9	
Protein	2g	4%
Vitamin A	3,120IU	62%
Vitamin C	79mg	130%
Thiamin (Vitamin B1)	38mcg	2%
Riboflavin (Vitamin B2)	16mcg	<2%
Niacin (Vitamin B3)	2,940mcg	14%
Vitamin B6	26mcg	<2%
Vitamin B12	0.6mcg	10%
Iron	6mg	33%
Magnesium	10mg	2%
Potassium	20mg	<2%
Chlorophyll	90mg	**
