History: What is The Simply Bar story?

The Simply Bar was created by a Canadian woman with Crohn's disease. She was unable to find a healthy protein snack that filled her up but didn't upset her stomach, so she created **The Simply Bar** to meet her needs: low in sugars and fat, high in protein, vegetarian and free of milk and gluten. She also insisted that the bars be made with a short list of natural ingredients that she could pronounce and no chemicals or ingredients that she couldn't. Although **The Simply Bar** was originally designed for people with digestive problems and food sensitivities, it is now loved by athletes, vegetarians and people who want a natural protein snack.
