100% JUICE POWDER**

WHEAT GRASS SHOTS

100% ORGANIC WHEAT GRASS JUICE POWDER

WHEAT GRASS SHOTS

Ever had a shot of wheat grass at your local juice bar? Our delicious and pure wheat grass juice powder offers the benefits of freshly squeezed wheat grass juice in a convenient and easy to use drink.

HEALTH BENEFITS

100% Juice Powder

Unlike whole leaf powders, which are made of pulverized dried grass and consist of 25% fiber, our wheat grass is gently juiced and spray-dried into powder under low temperatures. This creates a tasty, smooth and non-gritty nutritious drink that is ready for optimum body absorption.

Active Enzymes

Our unique processing method of juicing and spray-drying under low temperatures protects the many active enzymes found in fresh wheat grass juice.

Enzymes are destroyed when heated over 118°F. Since most of the food we eat is either cooked or heavily processed, many of us are enzyme-deficient. Active enzymes are critical for food digestion, energy production and brain stimulation. Without enough enzymes in our diet, our bodies cannot function properly.*

Chlorophyll

The high concentrations of chlorophyll in our wheat grass powder are evident in its dark green color. Chlorophyll is known for being a powerful detoxifier; it encourages oxygenation of the blood and helps the body cleanse itself of toxins and impurities.*

Because the molecular structure of chlorophyll is almost identical to hemoglobin, when ingested, chlorophyll helps the hemoglobin do its job - rebuild and replenish red blood cells while increasing energy.*

INGREDIENTS

100% Organic wheat grass juice powder (triticum aestivum)

Absolutely no fiber, fillers, or additives!
